Featuring boardroom intrigue, masquerade balls, gondola chases, street gangs, and shapeshifting mages, Ryan Van Loan's *The Justice in Revenge* continues the *Fall of the Gods* series as Buc and Eld turn from pirates to politics and face the deadliest mystery of their career. The island nation of Servenza is a land of flint and steel, sail and gearwork, of gods both Dead and sleeping. It is a society where the wealthy few rule the impoverished many. Determined to change that, former street-rat Buc, along with Eld, the ex-soldier who has been her partner in crime-solving, have claimed seats on the board of the powerful Kanados Trading Company. Buc plans to destroy the nobility from within—which is much harder than she expected. Stymied by boardroom politics and dodging mages at every turn, Buc and Eld find a potential patron in the Doga, ruler of Servenza. The deal: by the night of the Masquerade, unmask whoever has been attempting to assassinate the Doga, thereby earning her support in the halls of power. Blow the deadline and she'll have them deported to opposite ends of the world. Armed with Eld's razor-sharp sword and Buc's even sharper intellect, the dynamic duo hit the streets just as the shadow religious conflict between the Gods begins to break into open warfare. Those closest to Buc and Eld begin turning up with their throats slit amid rumors that a hidden mastermind is behind everything that's going wrong in Servenza. Facing wrathful gods, hostile nobles, and a secret enemy bent on revenge, Buc and Eld will need every trick in their arsenal to survive. Luckily, extra blades aren't the only things Buc has hidden up her sleeves. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Hoping to make more time for her daughter, Meg, she commits to cutting back on her fifty-hour workweek. Not long after this decision, Meg is murdered—and no suspect can be found. In her grief, Karen becomes obsessed with one goal: find the killer; kill the killer. When she returns to work, Karen is assigned a new case: fifteen-year-old Frankie Ortiz, an abuse victim. Through adoption, Karen hopes to save Frankie as she could not save her own daughter. Meanwhile, Kendra Bruno uses witchcraft in an attempt to discover the parents who abandoned her. Instead of finding her parents, a figure appears in Kendra's bedroom mirror: a figure belonging to the ghost of Karen's daughter, Meg. As the lives of Karen, Frankie, and Kendra intersect, secrets are revealed from an unforeseen source. Meg has a message—not only for her mother—but for Kendra, too—and Karen might be the only person who can save Frankie from a horrific fate. When Karen finally discovers her daughter's killer, will she be able to stick to her vow of vengeance, or will her newfound relationships shake her resolve?

"A beacon of truth and wisdom for the abused and a help in their healing." —Scot McKnight and Laura Barringer, authors of *A Church Called Tov* "Reading this book . . . will change you forever, for the better." —Rachael Denhollander, speaker, victim advocate, and author of *What Is a Girl Worth?* "Sincerely thoughtful, incredibly practical, and truly compassionate book on abusive systems and the consequences of cover-ups." —Christina Edmondson, PhD, cohost of *Truth's Table* podcast "Am I the only one who sees this—am I just imagining things? Is something wrong with me . . . or could this be abuse?" Maybe you don't know for sure: all you know is something feels off when you think about a certain relationship or interaction with an institution or organization. You feel alone and confused—but calling it "abuse" feels extreme and unsettling, a label for what happens to other people but not you. Yet you can't shake the feeling: something's not right. In his debut book, researcher and advocate Wade Mullen introduces us to the groundbreaking world of impression management—the strategies that individuals and organizations utilize to gain power and cover up their wrongdoings. Mullen reveals a pattern that accompanies many types of abuse, almost as if abusers are somehow reading from the same playbook. If we can learn to decode these evil methods—if we can learn the language of abuse—we can help stop the cycle and make abusers less effective at accomplishing destruction in our lives. *Something's Not Right* will help you to identify and describe tactics that were previously unidentifiable and indescribable, and give you the language you need to move toward freedom and create a safer future

for yourself and others.

In the '80s, the Birmingham, England, band Duran Duran became closely associated with new wave, an idiosyncratic genre that dominated the decade's music and culture. No album represented this rip-it-up-and-start-again movement better than the act's breakthrough 1982 LP, *Rio*. A cohesive album with a retro-futuristic sound-influences include danceable disco, tangy funk, swaggering glam, and Roxy Music's art-rock-the full-length sold millions and spawned smashes such as "Hungry Like the Wolf" and the title track. However, *Rio* wasn't a success everywhere at first; in fact, the LP had to be buffed-up with remixes and reissued before it found an audience in America. The album was further buoyed by colorful music videos, which established Duran Duran as leaders of an MTV-driven second British Invasion, and the group's cutting-edge visual aesthetic. Via extensive new interviews with band members and other figures who helped *Rio* succeed, this book explores how and why *Rio* became a landmark pop-rock album, and examines how the LP was both a musical inspiration-and a reflection of a musical, cultural, and technology zeitgeist.

They are the first on planet earth, that we know of through our archery shop researches and the first archery target bows that launch - "Target Arrows, Fishing Arrows, Game Hunting Arrows", with an adapted "Whisker Biscuit" arrows rest, also, "Paintballs" - (freelance launch) & the silver spheres (1 - 5 shot pieces at a time) and air-soft bb's, reg. bb's just like arrows, up to approx. 100 yards distanced targets and for small game hunting ! These new archery target bows shoot (5) or more different ammo.s, (including "Paintballs 40 - 43 - 50 - 68 calibers), 1 - 4 shot pieces at a time, 180 - 350+ fps.! So, the ammo.s choice is yours or your parental guides, for safety purposes ! These new "Trackless Crossbows" in this new book are "all" basically inter-changable with each other and "all" their bow parts are very easy to replace, too. Also, the new bows make a "One Of A Kind" gift, already hand-made bow(s) or the book and they're a quite unique hand-me-down, too! These are alot of fun in competitive target scoring and a new "Paint-ball" game, "Paintball Archery". Also, by these being the first, "Originals", and "One Of A Kind", then the fi rst made will be the most valued life-time collectables, as time goes past! To inspire better relationships, like Father and Son working together, to make something that will last along time, and continue the great memories! This book is also, for the sportswomen and sportsmen of the archery sports and in great expectations that these innovated trackless crossbows will help create a new sport in America and other great countries! These are a great training and course leading to other archery sports, and are, a new archery sport and fun! I really want to include a note of inspiration, because the "Low Country" of Georgia, with its wonderful natural resources, lead myself in many ways to invent, including all of our proto-typing, researches and our developments, in creating "The Eagle I & II" and "The V-king I & II" - Trackless Crossbows at Slingbows Archerys. Also, this includes the cities of Midway, Hinesville, Richmond Hill and our great historical city of Savannah, GA.

As Christian educators, we want our students to know the Bible. Our students need a solid foundation of Scripture learning "for doctrine, for reproof, for education, for instruction in righteousness" (2 Tim. 3:16).At the same time, we know that Bible information is not enough. Once when Jesus was talking to serious Bible students, He had these harsh words to say: "These are the Scriptures that testify about me, yet you refuse to come to me to have life" (John 5:39-40).What a tragedy-people who knew all sorts of Bible details, yet had not yielded their lives to Jesus and had not experienced His transforming power! But it happened. And it can happen in our Sunday schools, even with dedicated leaders and teachers.What can we do? How can we make sure that we are reaching our students, and not just covering the lesson material?We must choose Bible lessons that students can understand and apply at their own level of development.We must build application into the whole lesson, and not just tack it on to the end.We must follow a comprehensive plan that takes every student, at every age, through a discipleship process that continues for a lifetime. This book will show you how. Disguised as a book of innocent postcards, *Slingshot* is a dangerous collection of Eric Drooker's most notorious posters. Plastered on brick walls from New York to Berlin, tattooed on bodies from Kansas to Mexico City, Drooker's graphics continue to infiltrate and inflame the body politic. Drooker is the author of two graphic novels, *Flood! A Novel in Pictures* (winner of the American Book Award), and *Blood Song: A Silent Ballad*. He collaborated with Beat poet Allen Ginsberg on the underground classic *Illuminated Poems*. His provocative art has appeared on countless posters and book covers, and his hard-edged graphics are a familiar sight on street corners throughout the world. Eric Drooker is a third-generation New Yorker, born and raised on Manhattan Island. His paintings are frequently seen on covers of the *New Yorker* and hang in various art collections throughout the U.S. and Europe.

A Gift for everyone who has ever loved a summer home! The hilarious and heartbreaking story of an aging summer cottage, built to be "a refuge from grief with room for joy." Faced with the intrusion of an air conditioner, the builder's grand-daughter reflects on how the cottage has battled change as it fulfills its purpose-cosseting lovers, defying gangsters, sheltering wounded

animals and children, and facing unique problems such as a porcupine in the basement, badgers under the support posts and a refrigerator in the bedroom. We watch the cottage adjust to history, fight for survival and always remain itself—a small house, nestled into the gentle magnificence of the Wisconsin North Woods.

The Las Vegas we know was conceived - if anybody really conceived it - in 1931, when Nevada liberalized its divorce and gambling laws, which would ultimately transform the city into America's playground for grown-ups. It was also the year an unprecedented engineering project began, that would turn the Colorado River from a wild killer stream to a wild reservoir that waters not only California vegetables but also sprawling Las Vegas suburbs. From 1905 to 1931, Las Vegas was still a tiny oasis in a big, dangerous desert. Its isolated people made their own swamp coolers, their own entertainment and sometimes their own whiskey. The author, Joan Burkhardt Whitely, enlisted older Las Vegans to help capture the memories of a Mojave

Mayberry where neighbors took care of each other, not merely because no one else would, but because it was their hometown, and they cared.

When Hector Ruiz joined AMD, quickly ascending to the CEO's suite, he took the helm of a dynamic company that was nonetheless struggling against perceptions that it could not contend with Intel, the Goliath of the microchip industry. Though AMD's technology, products, and pricing were keeping pace with or outstripping Intel's, the market wasn't responding. Why? Ruiz found deals unaccountably collapsing, his executives stonewalled by business partners, and promising innovations thwarted. As Intel made it almost impossible for its customers to use competitors' chips, rumors floated that the only reason Intel "allowed" AMD to exist was to stave off antitrust investigations by the Federal Trade Commission. As government investigations began to reveal the truth about Intel's predatory business practices, Ruiz realized that AMD's only option was to become David to Intel's Goliath. Recruiting a team of renowned strategists and industry leaders, Ruiz developed tactics based on superior technology and innovative alliances. And when he finally made the decision to file a historic lawsuit against Intel, the battle between the two rivals escalated, enveloping the entire personal computer industry and bringing to a head a conflict that had been building for more than a decade. This unprecedented inside account of the microchip industry at war offers lessons to all readers interested in the thrust and parry of the high-technology sector—or who face daunting competitive challenges of their own. Raised by a wealthy European couple in Bayville, New York, Zane struggled in his toddler and teen years with the nihilist philosophy on the meaningless of life because death was the ultimate result. With these thoughts gradually building a suicidal mind-set, Zane searched high and low for answers and sought the importance of life if there was one. Growing up, he had been conditioned by an Israeli soldier hired by his parents to train him in the arts of Krav Maga to ward off bullies and enemies during his school years. However, this would prove to become his biggest hurdle. After being denied truth from his own parents, he rebelled against them intellectually; and after inheriting a fortune from their wealth after their deaths, he used it to build a church after coming to faith. Being accused by many Christian leaders of being a false teacher for his faith-only stances, a man was sent to address him in person. He later failed to lay his life down for the crown given to those who did. Also discovering the truth of his origins, he then realized there were more answers that needed to be sought. Although he still maintained his philosophy that life was truly meaningless, instead of seeking death without purpose, he now sought death with purpose and chose to embark on his journey for martyrdom, redemption, truth, and another shot at the crown of life.

Slingshot explores the connection between systematic creativity and smart strategy. What if you could reignite your childhood creativity in a systematic way, to overstep self-imposed limitations and to discover what you are really capable of achieving? It's all here at your fingertips. Defy conventional wisdom and give reign to your imagination for success in your business and your life. Continuous innovation is both necessary and exhilarating, and we all possess the inner capacity for it. Our capacity has simply been buried and lays dormant within us. As children, our imagination knew no boundaries. We would grab a slingshot and be instantly transformed into a warrior, a spy, a huntress, or protector of treasure. But as we grew older, our intellectual comfort zone shifted from that of continuous exploration and inquisitiveness to that of conformity with accepted norms of perception. All is not lost, however. We just need the right framework to re-engage our youthful creativity: the Slingshot Framework. Find out why you need to infatuate your target audience and to provide them continuous lifestyle enrichment; how to become market-driving and to shape your offering for broadest relevance; and how to channel your reclaimed creativity into smart strategy. Launch yourself to new business and personal heights and have fun doing it. Re-enforcing the book's message, brilliant illustrations by children accompany the text from beginning to end, while original music and toy slingshots (accessible via www.slingshotliving.com

) provide readers with a truly multi-sensory experience.

Information about slingshot shooting is generally handed down from father to son or daughter, or, is gotten from neighbors or other acquaintances. This type of hand-me-down information is good but it is usually vague, inadequate, or possibly even down-right erroneous. But now, for the first time, there is a book (SLINGSHOT SHOOTING) that presents all the information you will need to go from a beginner to an accomplished slingshot shooter. The subject of safety is emphasized through out the book. Without emphasis on safety the sport of slingshot shooting could wither and die. Slingshot design and construction is discussed so that the beginner can decide what to look for when buying a slingshot or what to incorporate when building one from scratch. Aiming and shooting techniques are discussed in detail. Shooting accuracy can be inhibited for life if incorrect techniques are used when a person first starts shooting. Should you hold the slingshot in your right or left hand? What is an anchor point or cant angle? It's all in the book. In addition to the above, many other subjects are discussed. Target systems -- designed so that the ammunition can be retrieved and used over and over again. Ammunition -- what are the modern day shooters using for ammunition? How much practice time is required to become a good shooter? And, what is involved in using your shooting skills for tournaments and for hunting? It's in the book

381 AD: The Gothic War draws to a brutal climax, and the victor's name will be written in blood... The great struggle between the Eastern Roman Empire and the Gothic Horde rumbles into its fifth year. It seems that there can be no end to the conflict, for although the Goths are masters of the land, they cannot topple the last of the imperial cities. But heralds bring news that might change it all: Emperor Gratian readies to lead his Western legions into the fray, to turn matters on their head, to crush the horde and save the East! The men of the XI Claudia legion long for their homeland's salvation, but Tribunus Pavo knows these hopes drip with danger. For he and his soldiers are Gratian's quarry as much as any Goth. The road ahead will be fraught with broken oaths, enemy blades... and tides of blood.

Incumbents don't lose. So how did nationally prominent House Majority Leader Eric Cantor lose a primary battle to college professor David Brat, an unknown political rookie? In *Slingshot: The Defeat of Eric Cantor*, authors Lauren Cohen Bell, David Elliot Meyer and Ronald Keith Gaddie take advantage of exceptional behind-the-scenes access to the Brat campaign to explain the challenger's victory. They examine the essential need for elected officials to maintain strong support in their home districts and just how Cantor's focus on climbing the party ranks in Washington contributed to his loss. They also show how local "rules of the game"—particularly voter mobilization in this case—affect elections, and they explore the continuing impact of the Tea Party and its role in the factionalism of current Southern politics. "This is a book that needed to be written. Eric Cantor's defeat was not only shocking but it runs against everything we teach in our election courses. By extracting the lessons from Cantor's defeat, *Slingshot* helps to inform our more general understanding of campaigns & elections." —Professor Kirby Goidel, Texas A&M University

With information on how to forage responsibly and suggestions on sources for the best wood to use, Geoffrey Fisher shows how the natural bounty of woodland can be used to stunning effect. Whether building a bee hotel or an insect house to help your garden's ecosystem thrive, crafting a slingshot, whistle, jump rope or cup and ball game to give away, or making a key hook or table brush to organize your home, the result of each will be entirely unique while also effortlessly stylish. All basic woodworking techniques are covered, plus Geoffrey also shows how best to prepare materials, including checking for disease, drying and stripping bark, and gives a detailed guide on your essential tool kit - what to have, how to handle your tools safely, and how to maintain everything to the highest standard - meaning anyone can pick up *Slingshots & Key Hooks* and dive straight into the world of Geoffrey's designs.

"Helnwein debuts in striking fashion... The writing, especially the dialogue, is magnetic, honest, and brimming with caustic wit... [an] enrapturing take on the intense highs and lows of teenage love." —Booklist (Starred Review) "Wildly real and bursting with all the romance and pain of coming into oneself." —Kirkus (Starred Review) "Helnwein frankly conveys the joy, fear, and awkwardness of an all-consuming first love, poignantly depicting Gracie's

growth: particularly the hard-won knowledge that she can exist 'just by the sheer force of herself,' and the grace she learns to show herself and others." —Publishers Weekly "One of Eight 2021 YA Books To TBR ASAP" —BookRiot Mercedes Helnwein's *Slingshot* is an exciting debut contemporary young adult novel perfect for fans of Rainbow Rowell and Mary H. K. Choi "I didn't think it was going to be anything like this when I finally fell in love. I thought it was going to be pretty simple. Like, I'd love someone and they'd love me. I thought that's the way it worked." Grace Welles is stuck at a third-tier boarding school in the swamps of Florida, where her method of survival is a strict, self-imposed loneliness. And it works. Her crap attitude keeps people away because without friends, there are fewer to lose. But when she accidentally saves the new kid, Wade Scholfield, from being beaten up, everything about her precariously balanced loner world collapses and, in order to find her footing again, she has no choice but to discover a completely new way to exist. Because with Wade around, school rules are optional, weird is okay, and conversations about wormholes can lead to make-out sessions that disrupt any logical stream of thought. Nothing's perfect, but that's not the point. When they're together everything seems uncomplicated in a way that Grace knows is not possible. Except it is. So why does Grace crush Wade's heart into a million pieces? Acidly funny and compulsive readable, this debut is a story about two people finding each other and then screwing it all up. See also: soulmate, stupidity, sex, friendship, bad poetry, very bad decisions and all the indignities of being in love for the first time.

The Evolution of a Slingshot From A Toy To A Catalyst For Change *The Evolution of a Slingshot* is a story of a boy whose life is often as raw and unfettered as the times. He lives in a world of tarpaper shacks and basement homes, of dusty roads and outhouses, of poverty and optimism, of the American Dream and justice snubbed. In the late 1940s, while the country is recovering from the Great Depression and World War II, an eleven-year-old boy is simply trying to survive his small town world in Illinois. The great tragedy in his life has been the mysterious murder of his father, which has turned his world upside-down. The fear that grows out of his loss leads him to cling to his brother, Ray, as a substitute father figure. Unfortunately, Ray is only four years older, and while seeking retribution for his father's death, he is also struggling with his family's expectations of his filling his father's shoes. After watching the way Ray handles the situation when Jake is attacked on his paper route, Jake recognizes how self-destructive his brother's anger can be, and he is afraid for him. This strengthens Jake's resolve to handle his problems himself. The slingshot, which was once a toy to Jake, has now become his only means of defense. His life continues to offer him opportunities to choose how to deal with confrontations and the loss of others close to him. His struggle to make the right choices transforms his relationship with his slingshot. It is this evolving relationship that mirrors the changes in Jake's inner psychology—the changes which mold his personality and shape his ideas of right and wrong. When he finds himself at the decisive moment where he has the means to avenge the wrongs his family has suffered, what will his decision be? His future now hinges on the choices he makes.

For many years now, studies rejecting the idea of a direct causal link between the media and children's behaviour and beliefs, have been generating insights into children's interactions with all kinds of media forms. This book is designed

as an accessible introduction to these important research findings, for students of cultural and communication studies, psychology, and education; for professionals working with children and young people, and in the media industry; and for parents. 'Wired Up' comprises separate studies of a wide range of electronic media forms including television, video, computer games and the telephone, and includes coverage of a broad age-range, from pre-school children to adolescents and young adults. It provides insights into such diverse issues as the gendered nature of media consumption, the role of parental regulation and peer groups, and the significance of narrative, realism and morality.

Bill Dooley left a lucrative career as a music talent scout to pursue his dream of being a mountain lodge owner. Sadly, his big plans soon turn to nightmares.

With extensive repairs required to bring the property back to its original state, Bill hires several townsfolk to help, including Ed the carpenter, Little Bit the housekeeper, and Lauri the bartender. On New Years Eve, high above the Fork River, chaos ensues. Partygoers are attacked. The enemy is just a single cell in hundreds that have invaded America to find hidden nuclear weapon plans. Some of the employees are forced to do as their captors say like Lauri, who must serve the enemy food, drinks, and anything else they may desire. Bill devises a plan to take back the mountain, even if they have to go underground to survive. Other townsfolk get creative, devising weapons out of crude farming equipment while staying alert at all times. As the leader, Bill must stay strong to keep things in some kind of order, find a way to rescue Lauri, and stop the infiltrators.

Decoding the Hidden Tactics of Abuse--and Freeing Yourself from Its Power Babyboom Doom is a stirring testimony of the life of a soldier, whose attitude was shaped by the historical events of his time. The war doomed many of his generation to a life of unsolicited self discovery. After war, Casey seemingly is forever doomed to a life of failures, but with true grit and fortitude, he struggles on to become a survivor of the Babyboom Doom.

SLINGSHOT questions the value of manhood, the price of sex, and the possibility of liberation.

In the ten years since 9/11, a grassroots truth movement has sprung up that unites the best elements of the right and left. The call to resist the secrecy, imperialism, and the manipulation of the elite has been heard by a wide spectrum of people, across religious and political lines. This is a revolutionary moment that has lacked a clarifying manifesto. Until now. Pulling from his personal confrontations with the FBI, Rudolph Giuliani, Eliot Spitzer, and Dick Cheney, activist, maverick, and investigative reporter Sander Hicks reaches for a broader understanding of who was behind the 9/11 attacks. He reports the mysterious murder of Dr. David M. Graham, a Shreveport dentist who met two of the 9/11 hijackers but was then harassed by the FBI and poisoned. Scientific evidence leads him to take a hard, critical stance against Bush, Cheney, and the 9/11 "Official Story." Weaving evidence with anecdote, Slingshot to the Juggernaut is an inspiring ride into the 9/11 cover-up and the revolutionary possibilities it inadvertently created. Provocative and unyielding, Hicks examines the evidence, draws conclusions, and offers a vision for the future of the United States.
